

74-11

RESOLUTION NO. 5

WHEREAS, there is a need for control of private entrances onto public road ways. Therefore, the number of driveways permitted serving a single property frontage along town roads shall be the minimum deemed necessary by the town board on township roads and by the state and county on state and county roads for reasonable service to the property without undue impairment of safety, convenience, and utility of the roadway. There will be a cost of \$50.00 (Fifty dollars) for all new entrances on approval of the town board. The town would retain all pipes on township roads and the state or county would retain all pipes on state or county roads.
